Wren,

I also left you a VM. Please give me a call when you get a chance and we can discuss the direction I have been given.

Thanks,

Steve

Subject: TX REg Haze

Hey Steve,

I need to get a couple of meetings scheduled. Sam would like both meetings to occur within 30 days. What days are you and your team available for each? Send Tomika and me some dates so we can begin to coordinate a good day to meet.

1. With TCEQ to discuss reg haze SIP, Intrastate Trading, SO2 designations/monitors locations, and Transport. This can be a call or a meeting in Dallas if you want to visit in person. What dates would you/team be available?
2. With TCEQ and Industry to discuss Reg Haze, SO2/Nox budgets, shut down considerations, and overlapping planning periods. This discussion would partly tee up follow-up discussions with each industry to get more facility specific input. This meeting would be similar to the one we had previously and followup similar to what you did with each industry. What dates would you/team be available?

Let's talk tomorrow to see how we make this happen.
